Dance Living-Learning Community

The Dance LLC provides a supportive and engaging environment for freshman Dance majors to promote their success in this rigorous program as they strive to balance the intensive demands of dance studio classes and rehearsals, transition from dance as an extra-curricular pursuit to an academic major, meet the physical demands of dance, and become a member of the dance community. The Dance LLC provides support through an environment where the unique challenges of this program are understood by peers, faculty, and staff. All freshmen Dance Performance and Dance Education majors (determined through an audition process) are required to live in the Dance LLC.

Students who participate in the Dance LLC will:

• Achieve artistic and academic success.
• Be actively engaged in the School of Theatre and Dance and related student organizations.
• Develop broad awareness of the field of dance and the opportunities for professional preparation and engagement during their college career.
