**Future Pirate Nurse Living-Learning Village**

Program Overview
The Future Pirate Nurse Living-Learning Village (FPNLLV) strives to bring intended Nursing students together in a residential environment that provides encouragement, support, and enrichment activities that lead to success in the pursuit of a Nursing degree at East Carolina University.

Living and studying in an environment with like-minded, intended Nursing majors provides aspiring Pirate Nurses extra support as they transition from high school to the university. (NOTE: participating in the Village does not guarantee admission into the nursing program.)

Program Goals
While participating in the FPNLLV, students will have the opportunity to:

- Take classes together during the Fall and Spring semester
- Live in an environment that is conducive to academic achievement
- Be exposed to cultures and ideas that will enhance personal development
- Experience a day-in-the-life of a nursing student
- Grow academically, professionally, and personally in their quest to become an ECU Nurse
- Prepare for the rigors of the Nursing program with preparation for the **HESI A2 pre-entrance exam**, time management, and test-taking skills
