The focus and mission of the Engineering Learning Community (ELC) is to bring together Engineering students in a residential environment that provides encouragement and support which leads to success in pursuit of an Engineering degree. The ELC provides students with the opportunity to grow academically, professionally, and personally in their quest to become an engineer. Students accepted for admission to East Carolina University are not automatically accepted into the Engineering program.

Program Goals
The ELC will create an environment that invites opportunities for formal and informal interactions between faculty, staff, and students. It will provide opportunities and paraprofessional staff who support and enhance the residential living experience. The ELC will plan and implement programs and activities that integrate the in-class and out-of-class experience of Engineering majors. Opportunities offered include:
- Student-led tutoring
- Leadership and teamwork exercises
- Informal faculty/student get-togethers
- Block-scheduled classes with other Engineering students

QUICK FACTS
Residence Hall: Umstead Hall
Number of residents: 40+
Related major: Yes
Returning student experience: Yes
Roommate Pairing? Roommate in LLC Required
Required Classes
Fall semester, ENGR 1000 and ENGR 1012 and ENGR 1016 spring semester
Information and Application Available at: When the student is accepted into the ECU engineering program an offer to join the ELC is included
Contact Information: Deborah Poage; 252-328-9611 poaged@ecu.edu, www.ecu.edu/engineering

NEXT STEPS
1. Complete Housing Contract
2. Visit website - www.ecu.edu/lhc - to determine LLCs of interest
3. Apply to LLC(s) of choice

The Engineering Living Learning Community is a partnership between Campus Living and the College of Engineering and Technology.
