Future Pirate Nurse Living Learning Village

The Future Pirate Nurse Living Learning Village (FPNLLV) brings freshmen Intended Nursing majors together in a residential environment that provides encouragement, support, and enrichment activities. Our goal is to help students pursuing the nursing major adjust to the college environment, learn about aspects of the nursing profession, and be successful in their pursuit of becoming a Pirate Nurse.

Fall semester we focus on successfully transitioning to the ECU environment by educating students about campus resources and strategies for effective study skills and time management. Students are also paired with a sophomore FPNLLV mentor and socials are planned throughout the semester to help build community within the group. Spring semester we shift focus to learning more about the nursing career field through tours of the local hospital, guest speakers, graduate school information, and more. Socials and events are also planned through spring semester.

At the end of freshman year, FPNLLV members have the opportunity to apply for a FPNLLV mentor position the following year.

“Joining the FPNLLV was one of the best decisions I’ve made in my time at college. I gained insight on applying to nursing school, life after getting accepted to nursing school, and learning how to adjust to my first year away from home. I met my best friends and now roommates through the village and would recommend this program to anyone interested in Nursing!” – B.C., 2012-2013 Village
